1. On the eForm homepage, select “Edit Existing Job.”

2. Enter the student’s ID number.

3. The effective date should be within the pay period that the change will take effect.

4. Make the needed job change.

5. If changing the compensation rate, consult the Hourly Pay Scale and Job Codes document to ensure that the wage is consistent with their job code.

6. Ensure that a supervisor is selected.

7. Leave any necessary comments about what change(s) have been made.

8. Submit the form.
Inside the eForms homepage, select “Edit Existing Job.” Enter the student’s Employee ID and select the generated link.

Job edits should be used to change wage, job codes, combination codes, or supervisors. Ensure that the selected Effective Date corresponds with the pay period in which the changes will take effect.

- **Effective Date**: [Calendar Icon]  
- **Employee Classification**: SE Student Hourly  
- **Job Code**: 602854  
- **Combination Code**: 15422001-5600-00000 Computing Specialist  

AV/ES - Business Process

Changing the boxes listed under Position Information and submitting will automatically change the information listed on the hire form.
If changing the compensation rate, ensure that the new wage fits within the required pay band according to the Hourly Pay Scale or the Academic Salary Scale. If the wage change should be applied to a previous pay period, use retro pay for weeks prior to the effective date of the job edit.

Select a supervisor, even if the supervisor is not changing.

When all changes have been made, submit the job edit and wait for approval from the Student Employment Office.
